Overcome What Your Brain Cannot

Featuring: Richard G. Herman, D.O., F.A.C.O.O.G., CHT.

Obstetrics and Gynecology

Dr. Herman employs Complementary Medicine and is a Certified Clinical Hypnotherapist. He effectively uses hypnotic relaxation for pain control, speedier surgical recovery, loss of control issues, as well as to treat personal issues that negatively affect a person's daily functioning.

botsford.org

The presentation will highlight a complementary understanding of traditional medical illnesses. The attendee will obtain an understanding of what is commonly possible so as to treat patients across a wide spectrum of diagnoses using a neuro-hypnotic approach.

This informative lecture will:

- *Highlight an understanding of what neuro-hypnosis is
- *Its usefulness in either preventing post-traumatic stress from occurring or treating post-traumatic stress that is refractory to other current medical treatments
- *Demonstrate how neuro-hypnosis can be used to address and treat symptoms of chronic disease and illness
- *Include a discussion of neuroplasticity made simple

Come hear the above and much more life-changing information.

Cost is FREE for Members Non-Members cost is \$10.00. A Certificate of Attendance for workshop credit will be given toward CNE.
